## **Department of MCA**

### **Report on Industrial visit**

**Date: 24/03/17**

As a part of MCA curriculum, the students were taken to Industrial visits in ABB Company at Satpur, Nashik on 16<sup>th</sup> March 2017.

ABB operates in more than 100 countries and employs around 132,000 people. ABB in Nashik manufactures MV Switchgears.

Total 44 students of SYMCA class visited the company. They attended SAP ERP session for 2 hours. The students got practical exposure of SAP. Students were enthusiastic and enjoyed real working environment in industry.

At the beginning students were introduced to various safety measures to be followed in the company.

The topics covered:

- 1) Introduction to SAP
- 2) Modules of SAP
- 3) Integration of various modules.
- 4) Question and Answers

Overall the session was fruitful. It was a very good interaction session. This visit helped us to bridge the gap between academics and industry to some extent.
