MET-BKC A Nodal Centre of Virtual Laboratory Consortia

- A-VIEW (Amrita Virtual Interactive e-Learning World) is an award winning indigenously built multi-modal, multimedia e-learning platform that provides an immersive e-learning experience that is almost as good as a real classroom experience developed by Amrita e-Learning Research Lab. We are a part of Amrita Vishwa Vidhyapeetham, one of the fastest growing institutions of higher learning in India and address the most pressing issue of higher education in India – the shortage of highly qualified teachers.
- A-VIEW is part of Talk to a Teacher program coordinated by IIT Bombay and we are funded by the Ministry of Human Resource Development (MHRD) under the Indian Government's National Mission for Education using Information and Communication Technology (NME-ICT) along with various other projects in Virtual Labs, Haptics and Natural Language Processing. A-VIEW is now deployed at several IITs, NITs and other leading educational institutions across the nation.

Features of A-VIEW Class Room

- Deliver engaging classes live and recorded
- Provide access to lectures at varying bandwidths to multiple devices
- Multiple teacher and student interaction through video and chat sessions
- Simple click to share any kind of file and even your desktop
- Content can be displayed across multiple displays enabling a rich viewing experience
- Multi-Device compatible whiteboard
- Hand raise option for students to interact with teacher
