

### Scrutiny of Research Projects (M. Pharm.) by Industrial Experts

MET's Institute of Pharmacy is conducting PG courses in the specialization of Quality Assurance Techniques, Pharmaceutics and Pharmaceutical Chemistry. From academic year 2015-16; the research projects (synopsis) of the students are examined by the industrial experts from the area of specialization. The scrutiny of the projects has following objectives:

1. To check/verify novelty and rationale of the project.
2. To confirm feasibility and industrial applicability of the work.
3. To refine the experimental work.
4. To improve the knowledge of the student.
5. To make the platform available for interaction with industrial experts.

Following members were acted as expert from industry for the scrutiny of research projects of students for the academic year 2017-18.
