**REPORT ON Sewage Treatment Plant Visit 2017-18**

A sewage treatment plant visit for second year B.Pharm student was organized on 15/03/2018. Details of the visit are as follows:

**Name and Address of organization visited:** Bhujbal Knowledge City,  
Adgoan, Nashik.

**Date:** 15/03/2018

**Time:** 10.30 am

**Total no.of students visited the sewage treatment plant:** 40

**Highlights of the visit:**

- Mr. Pritam Ahirrao gave brief over view of sewage treatment plant: its working principle and functions of various units of treatment plant such screens, grit chamber, primary clarifier, aeration tank, secondary clarifier, sludge digester, etc.
- On all sites the students saw first-hand how the waste sludges are collected, processed and disposed off.
- These processes included anaerobic digestion, thickening, blending and dewatering.

**Conclusion:**

Through the visit, students got an in depth knowledge of the various components of the sewage treatment plant. The visit was quite helpful for the students to get the practical knowledge regarding the functioning and process of sewage treatment plant.
