Bhujbal Knowledge City

MET's Institute of Technology, Polytechnic

Adgaon, Nashik – 422003

Department of Computer Engineering

Programme Outcomes

PO1) Ability to use mathematics, basic science and computer engineering fundamentals and principles to real-life problem solving.

PO2) Ability to analyse, design, model and implement the solution to computer-based systems.

PO3) Ability to communicate (both written and spoken) effectively in business environment.

PO4) Ability to work effectively in multidisciplinary teams.

PO5) Ability to include social, cultural, ethical issues with computer-based solutions.

PO6) Ability to propose idea and implementing solution on it.

PO7) Ability to use various software tools in developing solution to engineering problems.

PO8) Ability to get engage in life-long learning process.

PO9) Ability to learn, apply the contemporary knowledge in computer science and engineering.

PO10) Ability to manage the computer-based systems projects.
