Parents-Teachers Discussion

Along with Class Coordinators and subject teachers regarding Academic Performance of Wards and future plans for improvements

For improving the overall performance of students, parent's-teachers meet plays an important role and will help the parents to know about their wards academic performance and their problems. Through this Parents meet, parents come to know the behavior of their wards also. As we observed, these days' teacher and parents do not come in contact with each-other. Parents also do not know the teacher. Both should meet each-other on some occasions. Parents are busy in their professions. They do not find time to visit the college and take interest in wards progress.

Keeping all the above mentioned snags in view, we are arranged a **Parents Teachers Meet** of Department of Mechanical Engineering (First & Second Shift) on Saturday, **23rd September 2017**.
