

Department of Mechanical Engineering, MET BKC IOT-P, Nashik organized an Industrial Visit to “MSRTC Divisional Workshop, Peth-Dindori Road, Nashik on 02-03 & 16 August 2017.

Objectives of Visit:

- [1] To study the organization structure of MSRTC, Divisional Workshop.
- [2] To observe, identify and understand the various automobile systems and components used in MSRTC buses.
- [3] To observe and study the Hydrometer testing, cell testing of Battery and alternator tests.
- [4] To observe & understand the working various automobile electrical systems and maintenance practices used in MSRTC Workshop.

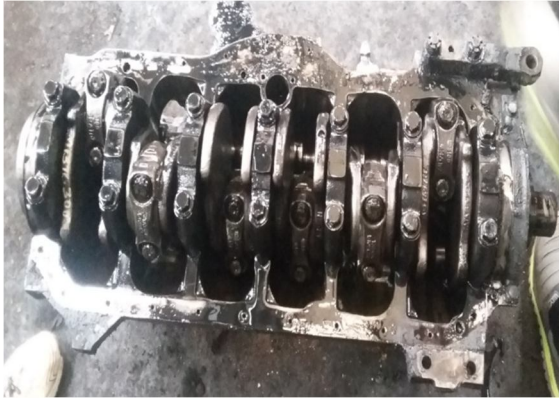

Benefitaries: Date: Day 1: 02/08/2017 – TYME 1 – 48 No. of Students - Prof. U S Kolhe, Prof. P P Badgujar -10.00 am onwards
Day 2: 03/08/2017 – TYME 2 – 53 No. of Students – Prof. A P Vadnere, Prof. D M Kulthe -10.00 am onwards
Day 3: 16/08/2017 – TYME S - 47 No. of Students – Prof. P R Chandwadkar, Prof. V D Jagtap -10.00 am onwards

Coordinator of Visit: Prof. V B Kalmegh, Lecturer in Mechanical Engineering & Coordinator of Ind. Visit Committee

Glimpses of Industrial Visit to “MSRTC Divisional Workshop, Nashik”

MSRTC (Maharashtra State Road Transport Corporation) Divisional Workshop, Nashik is divided into many subsections in order to maintain the quality and repair work of the different parts of bus correctly. The area of workshop is much bigger, that it can handle 20 buses at a time. The workshop does not produce the new buses it is just for maintaining and servicing of the working buses. After reaching the place we divided ourselves in group in order to proper understanding of everyone and then started to get information about different section.

On the behalf of Mechanical Department, MET-BKC-IOT-P, we would like to thank Deputy Mechanical Engineer, MSRTC Divisional Workshop, Peth-Road, Nashik, for allowing us to visit the organization. Also we would like to thank to Mr. Gawali, AWS of MSRTC Divisional Workshop and his entire team for sharing their knowledge, and valuable time with us. We found the visit of great value and extremely interesting.
