**About MET BKC**

Mumbai Educational Trust is having campuses at Mumbai, (Bhujbal Knowledge Center), Bhujbal Knowledge City, Adgaon, Nashik, Bhujbal Knowledge City, Govardhan, Nashik.

MET BKC, Adgaon campus is established in year 2006 The Nashik campus is running the institutes including, Institute of Engineering, Institute of Technology - Polytechnic (B. Tech, Diploma Engineering), Institute of Management, Institute of Pharmacy, Institute of D. Pharmacy (D. Pharm, B. Pharm), Institute of Information Technology (C-DAC, ATC), Bhujbal Academy of Science, MSBSE (Meena Bhujbal School of Excellence) along with School of Architecture & Design (Govardhan, Nashik).

**About Institute**

MET's Institute of D. Pharmacy was established in the year 2016 with the two year Diploma Pharmacy program (D.Pharm) approved by Pharmacy Council of India, New Delhi, DTE, Mumbai, Govt. of Maharashtra, affiliated to MSBTE, Mumbai. The four year Bachelor's of Pharmacy program (B.Pharm) affiliated to DBATU, Lonere launched in the year of 2021 as a center of academic excellence, is a result of relentless and dedicated efforts of our qualified faculty members. The faculty members of the institute are not only involved in conventional teaching but also work for the overall development of the students.

The students are trained not only for curriculum related topics but also exposed to soft skills, communication skills and personality development trainings. In addition, timely visits to the Pharmaceutical industries, hospitals and interaction with the Pharmaceutical stalwarts from academia as well as industry is arranged to groom them as per the current professional scenario.

**Vision**

Our focus Endeavour to develop MET's Institute of D. Pharmacy as a center of Academic Excellence which will mould high potential diverse student body into a good patient counselor instead of trader by providing dynamic educational experience, thus empowering them to become leaders in Patient centered Inter professional care.

**Mission**

Providing the society with qualified, competent, knowledgeable and skilled pharmacists with ace of Patient Counseling skill, contributing to the development of pharmacy profession and Assuring continuous up gradation of quality of education at the institute.

**Objective of Poster Presentation**

To encourage students to take active roles in practices & future directions of the profession.

- Name of faculty/ guide**
- Jamia College of Pharmacy, Akkalkawa,**

**Abstract:** Herbal medicines have been integral to India's traditional health care systems, especially Ayurveda, for centuries. In recent years, there has been a significant resurgence of interest in herbal medicine both domestically and globally, driven by the growing demand for natural and alternative healthcare solutions. In this study we are trying to analyse the current market trends and opportunities in India's herbal medicine field. This study aims to have a preliminary understanding of the Indian herbal medicine market, market size, growth prospects, key players, and regulatory framework and also highlights the significant efforts of government ministries towards promoting the Herbal medicine market in India and Abroad. By analyzing market trends and consumer preferences, this study offers valuable insights for entrepreneurs, investors, and policymakers looking to tap into the potential of herbal medicine in India.

**Introduction:** Herbal medicine has been integral to India's traditional health care systems, especially Ayurveda, for centuries. In the recent era, about 80% of the world population is dependent on medicinal plants for healthcare, and 30% of the Pharmacological drugs are of plant origin, either extracted from the plants or synthetic derivatives of these plant species. In the last decade, there has been a growing trend towards herbal medicines, with consumers becoming more aware of the benefits of natural remedies as an alternative to conventional drugs. In this article, we will discuss the current market trends and opportunities for herbal medicines with reference to various reports and studies.

Some of the most popular herbal remedies include:

1. Turmeric/ Curcumin: Known for its anti-inflammatory properties.
2. Ginger: Used for digestive issues and nausea.
3. Ginkgo Biloba: Believed to improve memory and cognitive function.
4. Echinacea: Thought to boost the immune system.
5. Peppermint: Used for digestive issues and headaches.
6. Garlic: Known for its cardiovascular benefits.
7. Ginseng: Believed to improve energy and vitality.

It's important to note that while herbal medicine can be beneficial, it's essential to consult with a healthcare professional before using any herbal remedies, especially if you have underlying health conditions or take conventional medications. They can interact with other medications or have side effects, so proper guidance is crucial.

The Meet interface shows three participants: Zaimullah Inamdar (Presenting), Vijay Patil, and Prof. Bhabha R.B. The system tray at the bottom indicates the time is 10:58 AM on 23-09-2024, with a temperature of 25°C and partly sunny weather.
