

# RED HAT ACADEMY

Bridging the gap between education and industry

BROCHURE

*“Most higher education institutions seek to prepare their graduates to be ‘work ready,’ so it’s no surprise that many of them have incorporated Linux-related content into their curricular programs. As the popularity of Linux in modern IT has grown, so has the demand for Linux and related skills in the job market. But building these courses so they match the expectations of enterprises, keeping them up to date as technology rapidly evolves, and properly supporting them with hands-on labs and exercises can be a complex, difficult, and costly undertaking. This is why we created the Red Hat Academy.”*

KEN GOETZ, GLOBAL VICE PRESIDENT  
RED HAT TRAINING AND CERTIFICATION

## EDUCATING THE NEXT-GENERATION I.T. TECHNOLOGIST

Red Hat® Academy provides a curriculum to help education institutions keep pace with the demands of industry. The curriculum involves hands-on instruction across platform, middleware, and cloud technologies built with input from Red Hat development, support, and field consulting teams. Unlike generic “distribution-agnostic” Linux® curricula, Red Hat’s curriculum is based on Red Hat Enterprise Linux, the leading enterprise Linux platform. Rather than learning theoretical skills, students learn practical skills based on use cases from thousands of enterprise implementations.

At Red Hat, we believe that closing the technology skills gap now is vitally important to the future of enterprise software—and the opportunity to do so should be available to all. That’s why we’ve made Red Hat Academy accessible to as many qualified academic institutions as possible. Eligibility is for nonprofit, degree-, certificate-, or diploma-granting institutions.

## TRAINED, TESTED, AND TRUSTED

More than 90% of Fortune Global 500 companies rely on Red Hat.<sup>1</sup> We know that finding IT professionals who know your technologies and have the right skills can be challenging. The Red Hat Academy curriculum is best-in-class training that offers a diverse curriculum that sets a foundation for system administrators and developers.

96% of Red Hat students say they are better prepared now than before class to maximize the value of their Red Hat technology investment.<sup>2</sup>

83% of Linux job postings seek Red Hat Certified Professionals.<sup>3</sup>

## PROGRAM FEATURES

The Red Hat Academy program partners with academic institutions to offer top-quality educational curricula on Red Hat technologies to help students reach their academic and career potential.

Features of the program include:

- **Global availability** of content in up to nine languages.
- **No-cost membership** to qualifying universities, with easy online program enrollment.
- **Collaboration** with the world’s leader in open source technology.
- **Industry-leading curriculum** that covers Linux, cloud, and middleware technologies to help students acquire cutting-edge, job-relevant IT skills.
- **Multiple student courseware formats** that include e-book, printed, or online.

<sup>1</sup> Red Hat client data and Fortune Global 500 list, 2016

<sup>2</sup> 2015 Red Hat student global course evaluation survey

<sup>3</sup> 2015 Red Hat certification survey

- **Flexible hands-on lab options** to help academies accommodate their students.
- **Discounted Red Hat certifications** for students and instructors.
- **Instructor skill improvement** through no-cost access to Red Hat online training courses.
- **Globally standardized materials** available through the Red Hat Academy portal, a new web-based order process.

## CURRICULUM AND CERTIFICATION

Red Hat Academy offers a range of curriculum and certification offerings. The program provides access to five in-demand courses with more on the way.

### CORE SYSTEM ADMINISTRATION

#### Red Hat Enterprise Linux

Learn to deploy, administer, manage, and secure Red Hat Enterprise Linux.

- Red Hat System Administration I (RH124)
- Red Hat System Administration II (RH134)
- Red Hat System Administration III (RH254)

### MIDDLEWARE DEVELOPMENT

Master middleware applications.

- Red Hat JBoss® Enterprise Application Development I (JB225)
- JB125 (coming soon)

### CLOUD COMPUTING

Support organizational movement to the cloud.

- Red Hat OpenStack Administration I (CL110)

### RED HAT CERTIFICATION

The Red Hat Academy offers three certification tracks.

**50% discount for students**

**75% discount for instructors**

- Red Hat Certified System Administrator (RHCSA) | EX200
- Red Hat Certified Engineer (RHCE) | EX300
- Red Hat Certified JBoss Developer (RHCJD) | EX225

Red Hat Linux system administrator **salaries are 10% higher** than other Linux system administrators.<sup>4</sup>

**COURSEWARE AND HANDS-ON LABS**

**COURSEWARE**

**e-Books (cost option)**

- Student and instructor guides
- One-year online access
- Permanent download access
- Highlight, annotate, take or share notes, print limited pages
- Convenient access anywhere immediately after ordering

**Printed books (cost option)**

- Student and instructor guides
- Spiral-bound, shrink-wrapped, and delivered by courier service
- Choice of delivery frequency and preferred shipping method

**HTML5 (no-cost option)**

- Student guides in HTML5 format
- Cannot be printed, annotated, or viewed offline
- Access limited to six months

**HANDS-ON LABS**

**Do it yourself (no-cost option)**

- Download our lab images
- Deploy on your systems

**Cloud solution (fee-based option)**

- Fee is per user for a defined duration
- Choose from recommended lab service providers
- Access labs aligned with the Red Hat Academy curriculum by the internet through the service providers

**Partner solution (no-cost option)**

- Use your institution's existing IT academy program
- With the required hardware, deploy labs from Red Hat Academy

To find out more and register your institution, visit [Red Hat Academy](#). Join us in helping prepare the next generation of developers and IT professionals for a bright, innovative future.
