

INDUCTION PROGRAM 2021

Day 5: Visit 1.

17 December 2021

Friday

On last day of program we organized two informative visits for students. First visit was to the “Pragati Museum”, HAL, Ozar (Mig). The purpose of visit was to add the knowledge into students about achievements and commendable journey of HAL. Definitely it was very great opportunity to our students to come close the technical aspects of air-crafts which is remarkable part of defense system of our nation. As per our experience after this visit our students will design their path in academics and that will be very easy to achieve their goals in various fields of engineering.

Glimpses of visit at “Pragati Museum”:

Second visit was to the farmers coeoperative agriculture company “SAHYADRI FARMS”, Mohadi. The intent of the visit is to provide practical knowledge of operations of farmer’s cooperative company to students. It will be very helpful for the students as many of them from agriculture background; also as company on the path of creating crop-specific integrated value chains empowered by technology and efficient management, students were very acquisitive to get the information about the same. Finally the visit will encourage and initiate students about entrepreneurship and own start-ups.
