**Letter of Recommendation**

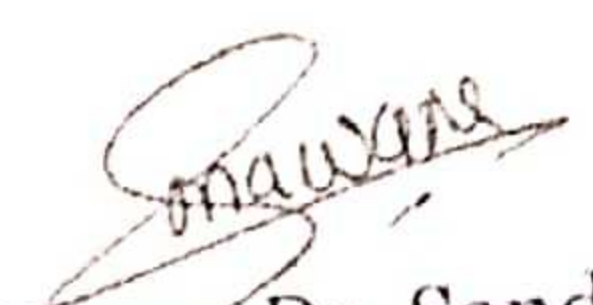

I am writing this letter to offer my recommendation to **Mr. Sumit Mahamane** in his application to your esteemed university, who was a student in my Pharmaceutical Analysis class. He is recognized as a highly conscientious and dedicated student with good practical skills. He has a creditable performance in my subject as well as overall.

Sumit has visited industries and has also taken industrial training. He has good communication and presentation skills. He has that combination of a positive attitude and the belief that he can always improve which is so essential to the learning process.

Sumit's strong belief in his ability to acquire new skills and improve through practice was likely shaped by his years as a singer. He actively took participation in college events and won 1<sup>st</sup> prize in singing competition. He displayed a good deal of interest in assisting the National Social Service Camp

I have no doubt whatsoever, that with his strong drive and motivation he will be highly successful. His application for admission to your University has my wholehearted support. Please feel free to contact me if you have any questions at [sandeeps.iop@gmail.com](mailto:sandeeps.iop@gmail.com)

Sincerely,

#### To Whomsoever It May Concern

I have known AnuKini in my capacity of Professor and as the Head of Pharmaceutical Analysis Department at the MET Institute Of Pharmacy, Nashik. The institute is affiliated to the University of Pune, rated as one of India's best universities. I have known her for two years and taught her subjects like Pharmaceutical Analysis and Biostatistics. I found her to be a motivated, hardworking, and a consistent performer in the years that I taught her, and also before that, when she was in her first and second year of the college.

Anu comes across as a very sharp student and a quick learner right from the beginning. Her academic records and her active participation during lectures gave me ample evidence of her sound technical knowledge in her field. Her ability to analyze a given problem from varied angles and the enthusiasm to look for practical ideas to solve problems distinguishes her from an average student.

I would like to add that she briefly worked with me on a research project in forced degradation studies of Trazodone with a lot of interest and will. She discontinued due to the GRE exams.

Apart from excelling in studies, Anu also actively participated in the extra-curricular activities like sports, treasure hunts and other cultural events. She successfully represented our University in inter-collegiate events.

Anu has a pleasing personality and comes across as an outgoing person. She is a good team player and has always been helpful to her batch mates. She has excellent communication skills with a commendable command over the English Language that was evident during her Seminar and Project presentations.
