Academic Year: 2024-25
One Page Report of Fun Fair**

As part of the **Entrepreneurship Development** a vibrant **Fun Fair** was organized on **4th April 2025**. The objective was to foster creativity, innovation, and entrepreneurial thinking among students through experiential learning activities.

The event featured a variety of student-led stalls, games, and interactive activities that not only entertained but also showcased the students' entrepreneurial spirit and management skills.

A major attraction of the Fun Fair was the **Poster Competition**, which saw enthusiastic participation from students across various departments. The students expressed their thoughts through creative, thoughtful, and visually appealing posters.

Entries were judged based on originality, relevance to the theme, and overall presentation. The **prize distribution for the winners was carried out under the Space Account**, with due acknowledgment of their talent and effort.

This event served as an excellent platform for students to engage in practical learning, enhance their entrepreneurial mind set, and build teamwork. The activity received active participation and positive feedback from students and faculty, contributing successfully to the goals of the EDE initiative.
