

VOL :1 Issue :1
AY: 2021-22

E-News Letter of Department of Information Technology

**Vision of Department of Information Technology**

To develop highly competent IT engineers with enhancement of knowledge, skills and professional attitudes to suit the changing scenario and to serve techno-social needs.

Mission of Department of Information Technology

M1: To implement the quality educational program in information technology from fundamental engineering to recent technology as per emerging trends.

M2 : To bench mark the global standard of quality education in the information technology .

M3: To take continuous efforts to meet the technological challenges in collaboration with industries .

M4 : To take continuous efforts to inculcate the sense of social responsibilities in students

Programme Educational Objectives (PEOs):

PEO 1. Provide socially responsible, environment friendly solutions to Information technology related broad-based problems adapting professional ethics.

PEO 2. Adapt state-of-the-art Information Technology broad-based techniques to work in multidisciplinary work environments.

PEO 3. Solve broad-based problems individually and as a team member communicating effectively in the world of work.

Program specific outcome

PSO 01. Modern Information Technology: Use the latest technologies for operation and application of information.

PSO 02. Information Technology Process: Maintain the information process using modern information and communication technologies.

Editorial board: Dr .R.S.Narkhede**Staff coordinators :**Mr.S.B.Patil Mr.S.R.Gaidhani ,

AZADI KA AMRIT MAHOTSAV.

Azadi Ka Amrit Mahotsav is an initiative of the Government of India to celebrate and commemorate 75 years of progressive Independent India. Through Azadi Ka Amrit Mahotsav India is celebrating the glorious history of its people, culture and achievements. It is an embodiment of all that is progressive about India's socio-cultural, political and economic identity.

The official journey of "Azadi ka Amrit Mahotsav" was started on 12th March 2021 from Sabarmati Ashram when Prime Minister, Shri Narendra Modi flagged off a 75-week long festival to commemorate 75 years of India's Independence. This started a 75-week countdown to our 75th anniversary of Independence Day and this will end post a year on 15 August 2023

On 12th March 1930, Mahatma Gandhi started Dandi Yatra from Sabarmati Ashram for the awakening of self-reliance and self-respect of the country, and on this day in 2021, the symbolic Dandi Yatra was started by Prime Minister, Shri Narendra Modi which marks the revival of our journey of self-reliance and self-respect with the beginning of Azadi Ka Amrit Mahotsav.

Azadi Ka Amrit Mahotsav is dedicated to the people of India who have not only been instrumental in bringing India far evolutionary journey but also hold within them the power and potential to enable the vision of Prime Minister Modi's to activate India 2.0 which is fueled by the spirit of Atmanirbhar Bharat. The celebration of the Amrut Mahotsav of Independence was started of the Dandi March, the Amrut Mahotsav of Independence was inaugurated by giving the green light to the Dandi March. March 12 was chosen because Mahatma Gandhi started the Dandi Yatra against the British 91 years ago, on March 12, 1930. There are five pillars of the nectar festival of independence:

- The struggle for independence - New ideas for the progress of the nation on the occasion of the 75th anniversary of independence.
- The steps to be taken on the 75th anniversary of independence and
- The resolutions made by the citizens of the country on the 75th anniversary.

On 12 March 1930, Gandhi and 78 satyagrahis, among whom were men belonging to almost every region, caste, creed, and religion of India, set out on foot for the coastal village of Dandi, Gujarat, 385 km from their starting point at Sabarmati Ashram. The Salt March was also called the White Flowing River because all the people were joining the procession wearing white Khadi.

According to The Statesman, the official government newspaper which usually played down the size of crowds at Gandhi's functions, 100,000 people crowded the road that separated Sabarmati from Ahmadabad. The first day's march of 21 km ended in the village of Aslali, where Gandhi spoke to a crowd of about 4,000. At Aslali, and the other villages that the march passed through, volunteers collected donations, registered new satyagrahis, and received resignations from village officials who chose to end co-operation with British rule.

As they entered each village, crowds greeted the marchers, beating drums and cymbals. Gandhi gave speeches attacking the salt tax as inhuman, and the salt satyagraha as a "poor man's struggle". Each night they slept in the open. The only thing that was asked of the villagers was food and water to wash with. Gandhi felt that this would bring the poor into the struggle for sovereignty and self-rule, necessary for eventual victory.

First Year –Information Technology

Introduction about cyberwarfare : Cyberwarfare refers to the use of digital attacks like computer viruses and hacking by one country to disrupt the vital computer systems of another, with the aim of creating damage ,death and destruction. Future wars will see hackers using computer code to attack an enemy's infrastructure, fighting alongside troops using conventional weapons like guns and missiles. A shadowy world that is still filled with spies, hackers and top secret digital weapons projects, cyberwarfare is an increasingly common and dangerous feature of international conflicts. But right now the combination of an ongoing cyberwarfare arms race and a lack of clear rules governing online conflict means there is a real risk that incidents could rapidly escalate out of control.

What is cyberwarfare : Just like normal warfare which can range from limited skirmishes to full-on battles, the impact of cyberwarfare will vary by target and severity. In many cases the computer systems are not the final target they are being targeted because of their role in managing real-world infrastructure like airports or power grids. Knock out the computers and you can shut down the airport or the power station as a result. Perhaps attackers start with the banks: one day your bank balance drops to zero and then suddenly leaps up, showing you've got millions in your account. Then stock prices start going crazy as hackers alter data flowing into the stock exchange. The next day the trains aren't running because the signaling stops working, and you can't drive anywhere because the traffic lights are all stuck on red, and the shops in big cities start running out of food. Pretty soon a country could be reduced to gridlock and chaos, even without the doomsday scenarios of hackers disabling power stations or opening dams.

Why are governments investing in cyberwarfare? Governments are increasingly aware that modern societies are so reliant on computer systems to run everything from financial services to transport networks that using hackers armed with viruses or other tools to shut down those systems could be just as effective and damaging as traditional military campaign using troops armed with guns and missiles. Unlike traditional military attacks, a cyberattack can be launched instantaneously from any distance, with little obvious evidence of any build-up, unlike a traditional military operation. Such an attack would be extremely hard to trace back with any certainty to its perpetrators, making retaliation harder. As a result governments and intelligence agencies worry that digital attacks against vital infrastructure like banking systems or power grids will give attackers a way of bypassing a country's traditional defenses, and are racing to improve their computer security. However, they also see the opportunity that cyberwarfare capabilities bring, offering a new way to exert influence on rival states without having to put soldiers at risk. The fear of being vulnerable to the cyber weapons of their rivals plus a desire to harness these tools to bolster their own standing in the world is leading many countries into a cyber arms race. One example: cyber crooks who crash a bank's computer systems while trying to steal money would not be considered to be perpetrating an act of cyberwarfare, even if they come from a rival nation. But state-backed hackers doing the same thing to destabilise a rival state's economy might well be considered so. The nature and scale of the targets attacked is another indicator: defacing an individual company's website is unlikely to be considered an act of cyberwarfare, but disabling the missile defense system at an airbase would certainly come at least close. The weapons used are important, too cyberwar refers to digital attacks on computer systems: firing a missile at a data center would not be considered cyberwarfare, even if the data center contained government records. And using hackers to spy or even to steal data would not in itself be considered an act of cyberwarfare, but calling every hack an act of cyberwar is at best unhelpful and at its worst .

Chandwadkar Om Naresh (FYIF)

Implant training /Internship

The poster features the Static.Int Educare logo on the left. At the top, it displays 'MET Bhujbal Knowledge City' with contact details and 'INSTITUTE OF TECHNOLOGY POLYTECHNIC'. A central banner reads 'LIVE WEBINAR ON Introduction to Internship Program by Static.Int Educare for the students of Computer Engineering and Information Technology Department'. Below this, it says 'Introduction to training Program' and 'July 8th, 2021 AT 10:30 AM IST'. The venue is 'Google Meet' with code 'odf-jwhm-hze'. A circular photo of Semil Shah is shown with the text 'Presented by: Semil Shah, Co-founder at StaticInt Educare'. Contact information for more details is provided at the bottom.

Introduction to Internship program to second year students:

Objective :Intorducation to Internship program by Static .int Educare for the students of computer enginerring and information Technology

Mode/ Venue :Online by Google meet : <https://meet.google.com/odf-jwhm-hze>

Beneficiaries: Second year IT students.

Date : 8th July 2021 time 10.30am.

Resource: Semil Shah

Student's On-line In-Plant Training :

Students of Computer / I. T. Branch, We are very happy to say that, we have arranged an Online Google Meet Meeting related to " Student's On- line In-Plant Training “ , Date : Sunday 11th July 2021 at 7.30 PM. Google form :

<https://forms.gle/Ln5tnWgWXEAx26no7>

Schedule:: SUNDAY ON 11th July @ 7.30 PM.

Resource person : Pravin Ambekar , Amb's C-DSP Pvt. Ltd. Aurangabad.

On-line In-Plant Training Seminar :

Objective : Be ready for today's free demo class on RPA and MSBTE 6 WEEK TRAINING

Mode of conduction: Online

Google meet :- meet.google.com/wrt-ubpk-mnv

Date : 12th July 2021 at 11.00 am.

Beneficiaries: Any Tech, Diploma & Degree students, Professionals who wants career change, Scholars

Content of session: What is AWD? , Why should I have to do Training? , Job opportunity , How to switch career ? Internship opportunities, Real Time process demonstration, Interaction with Industry

Resource : Expert. Pro Azure Software Solutions Pvt.Ltd Pune

On-line In-Plant Training Seminar :

Implant Training @Innovations Hub Services Pvt Ltd, Nashik

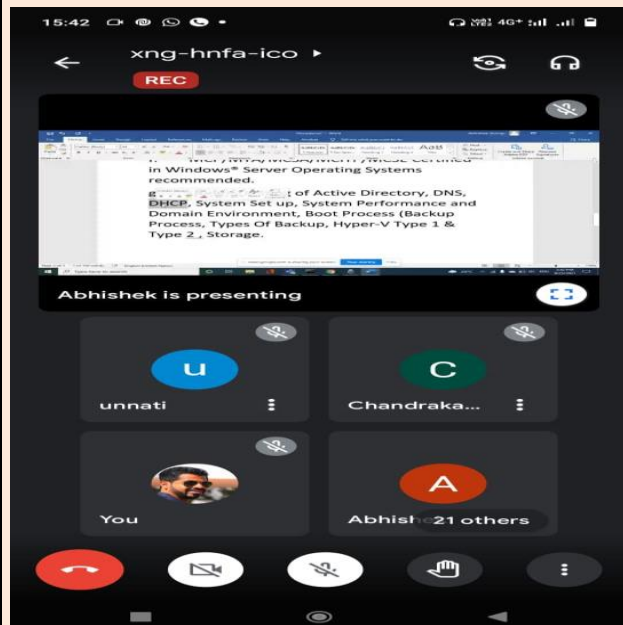

Industrial Training for 4 Week and 6 Week. Please register on following link:

<https://forms.gle/zHh3i6ZrDRVbrKd96>

Cover different technologies like : Web Design & Development ,Mobile App Development Python Programming

Banifcairies : Information Technology students are hereby informed that we have scheduled your webinar on the MSBTE Inplant Training - 2021. **Date**: 30/07/2021 , Time: 11.00 AM , Platform: Google Meet : Link: meet.google.com/mjc-hcut-ows

Alumni Expert lecture

Objective: To provide guidance to students regarding interview techniques, job opening

Date of seminar: 25/08/2021:

Resource person: Industry Expert Mr Abhishek Shimpi (Alumni IT Year 2016)

Description: Mr. Abhishek has guided our interested students of IT and Computer Engg. branch on current Microsoft Job openings regarding, job description, interview process and careers.

Beneficiaries: Students of Information Technology and computer Engineering

E- Quiz competition

Registration Procedure:

1. All the Diploma/Degree Students of Computer/ Information Technology streams can participate in this Technical Event.
2. Students should submit the Google Form provided in the below given link.
3. Participants can attend E-Quiz anytime between 9.00 am to 5.00 pm from 15th Sept. to 17th Sept. 2021.
4. All the participants will receive appreciation E-Certificate.
5. No Registration Fees

Link for E-Quiz: <https://forms.gle/TGcTdVv3uZh66TNx8>

Event Organizer: Information Technology & Computer Engineering Department.

MET's Institute of Technology, Polytechnic, Nashik

Expert online session on "How to acquire Industry 4.0 skills"

Organizes an expert's online session on "How to acquire Industry 4.0 skills"

For Third Year Students of all branches

An expert shall guide students on how to develop Industry 4.0 skills such as analytical thinking and innovations, active learning and learning strategies etc.

Resource Person : Mr .Virpaksh Mahant Deputy General Manager (Corp .Strategy and Business Transformation) Tata Motors Ltd.Pune

Date : 23/07/2021 TPO:

MET's Institute of Technology- Polytechnic

Bhujbal Knowledge City, Nashik

Training and Placement Cell

Expert /Guest Lecture:

Expert online session on Career Choices After Diploma Engineering

Training and Placement Cell

Organizes
A Webinar for Second Year & Third Year Students on
"Explore Your Career Choices After Diploma Engineering"
An expert shall guide students on how to develop a career action plan.

Date : **30th August 2021 (Monday)**
Time : **11.00 am to 12:30 pm**

Speaker : **Mr. Yogesh Baheti**
Resource Person is a Global Career Mentor & Founder of Destiny Planner, www.destinyplanners.asia.com

Google Meet Link: <http://meet.google.com/aeu-fusf-zoo>
Click above link to join the session on Scheduled date & time.

INSTITUTE OF TECHNOLOGY, POLYTECHNIC

Objective: An expert's online session on Explore Your Career Choices After Diploma Engineering!

Content : An expert shall guide students on how to develop a career action plan in the career planning process.

Beneficiary : For All Branch SY & Third Year Students

Resource Person: Mr Yogesh Baheti
Global Career Mentor & Founder of Destiny Planner
www.destinyplanners.asia.com

Date: 30 August 21 (Monday) **Time:** 11 to 12:30 Pm

Google Link : <http://meet.google.com/aeu-fusf-zoo>

Organized by: Training and Placement Cell
MET's Institute of Technology- Polytechnic
Bhujbal Knowledge City, Nashik

Expert online session to improve Speaking English effectively for Job Hunt

Objective: Organized an expert's online session on "Speaking English Effectively for Job Hunt"

Resource person: Prof S.G Sharma and Prof D. B.Aher

Beneficiary: For Third Year Students of all branches

Date: w.e.f.1st Oct 2021 to 8th Oct 2021(Refer detailed time table)

Time: 02 to 03:30 Pm **Google Link :** <http://meet.google.com/koz-gdud-mqw>

MET's Institute of Technology-Polytechnic

Training & Placement Cell

Organized A Series of webinar (Part -A) for Third Year Students On
"Speaking English Effectively for Job Hunt"

Speakers: Prof S. G. Sharma & Prof. D. B. Aher
Resource Persons are Experienced, Expertise in the field of English Literature, Conversational Skill and Soft Skills Training.

Duration of Series: 1st Oct. 2021 to 8th Oct. 21 **Time:** 02:00 Pm to 03:30Pm*

Objectives

This webinar will help students to learn and develop

- Importance, awareness and practises of English Communications
- Ability to speak English more confidently
- Chances of getting selected in an Job Interviews

Refer Detailed Time Table Schedule below joining the meet*
