## INDUSTRY INSTITUTE PARTICIPATION CELL (IIPC)

(A.Y.2022-23)

Industry institution Participation Cell is established with the objective of reducing the gap between industry expectations (practice) & academic offerings (theory) by direct involvement of pharmaceutical industries. The cell is bridge between the industry & the institute.

### Objectives:-

- To contact the HR manager
- To acquire the selection criteria of the company
- Shortlist students according to students interest & company criteria
- To organise the Campus Interviews of various companies
- Arrange Industrial visits
- Organise the guest lectures, workshops, seminars with joint participation of the faculty & industrial experts for the upliftment of pharmacy professionals.

### Function:-

- To cultivate the strong link with industry
- To promote various industrial activities by faculty members & students
- To catalyse the further growth & development of interaction between the institute & industry
- To have a closer linkage & promote research suited to industry needs & consultancy which creates a sense of ownership among faculty members
- To bring about MOU's \* agreements with various industries
- To attend industrial training programme by academicians.
- To arrange Industrial visit for student
